

THURSDAY, APRIL 11, 1745.

Monday arrived the Mails due from Holland and Flanders.

Naples, March 23.

We were no sooner free from the Distress brought upon us by a Foreign War, than we found ourselves involv'd in Troubles of another Nature, since the Tribunal erected for Enquiry into the Conduct of the Disaffected, have been every Day almost borrowing one Body or another from their Families

At present there are 60 Persons of Distinction, and 200 of a meaner Condition, in Prison on general Charge of Disaffection. On the 16th of March the Duke de Verzino, the Baron Francis Saxe, and four other Men of Quality, were condemned to perpetual Banishment, their Goods confiscated, and Persons deliver'd, without any farther Process, to the Hangman, in case they should ever be in the King's Dominions; and all Persons are to correspond with them directly or indirectly. The Queen of Hungary's Manifesto. On application made to his Majesty in Favour of the Duke de Verzino, he was pleas'd to observe, that if that Duke had ever had any Cause given him to be dissatisfied towards the present Government, he should have list'n'd to any Application in his Favour; since he had been cover'd with Kindnesses ever since his Majesty's Accession, he judg'd his bad Behaviour to be a Lightness of Mind unworthy of Clemency, which ought to be extended to Enemies, but not to Tyrants.

On the 27th of this Month 700 Men began their March for the Army of Prince Lobkowitz, the Van Guard of which is at Cattolica. We learn from Modena and Mirandola, that they are putting Fortifications of those Places into the best Order; and from Mantua we hear, that 1000 Prussian Men are in full March to join the Austrian Army. Officers of Prince Lobkowitz's Army, that are sent to it consist of 24,000 Men, which no Commander, tho' we are generally of Opinion, can compare with counting them twice. As for the Count de Gages, he is actually at Palermo, where he expects a Train of 30 Pieces of heavy Artillery, the same Number of Field Pieces lately pass'd from Furla, under an Escort of a considerable Body of Foot. He makes no Secret of his Design, to attack the Austrians immediately.

On March 27. There arrived here lately 73 Mules, with 146 small Chests of Gold, which are laid up in the Spanish Post-Office, for what Purpose we are yet ignorant. A great Supply for their Army, of Troops, Ammunition, and Money, is also arrived from Barcelona, and 33 Kebeques. It is said, the Infant Don Philip is to come hither, and that an Apartment is preparing for him. Our Military Preparations are carrying on with great Heat, notwithstanding there are all sorts of English Men of War on our Coast; and we are very certain, that Admiral Rowley is at Sea, with the whole Fleet. According to our last Advices from the Conduct of his Sardinian Majesty is absolutely impracticable; yet it is true, that the Military Preparations in his Dominions are carried on, but carried in such a Manner, as affords great Room for Speculation. In the mean time, it is certain, that he has promis'd to send him thither the two Austrian Regiments, and the Irregular Troops that join'd his Army last Year; with such Succours, as the present State of his Affairs will permit him to send. We are certain Intelligence, that 20,000 French Troops are this Campaign in Piedmont, under the Command of M. Maillebois; and a French Commissary is arrived here to take Care of their Subsistence. This is all the News we have; but it is very probable, that we shall be able to send, speedily, Matters of Importance; in the mean time, the Junto of Ministers daily; and we continue to cast Brass Artillery, whether for the Use of our Troops, or of the Spanish, is a Point which Time only can determine.

On the last Day of the last Month the Time for the Jews quitting this City, in which they stay'd to the last Moment. At present there is not one of them left; the Houses in what was call'd the Jews Quarter of this City are entirely empty, except a Dozen, in which there are 100 Sick People, and

Women in Childbed. The Jews, for the present, are retired into the Villages in our Neighbourhood, where, by the Queen's Edict, they have Leave to stay till the last of June; and then they are banish'd for ever, not only out of this City and Kingdom, but also out of all her Majesty's Dominions. We continue to recruit here with the utmost Diligence and Success.

Vienna, April 3. The Departure of Prince Charles of Lorraine for the Army in Moravia, remains fix'd for the 9th of this Month. We have receiv'd Advice, that the Prince of Hohenzollern, who has a Regiment in her Majesty's Service, deceased lately. We have the same News with regard to the Marquis de Botta Adorno, Colonel likewise of a Regiment of Foot, and formerly Minister in Russia, and afterwards in Prussia; who died at Neustadt on the last of last Month, in the 46th Year of his Age. On the Representations made by a Person sent hither for that Purpose by the Elector Palatine, that it was hard to levy Contributions in the Territories of a Prince who was willing to embrace a Neutrality during the present Troubles, Answer was immediately given, that he might be free from these Inconveniences, by renouncing his Alliance with the Queen's Enemies; and that he might, if he pleas'd, enter into a Negotiation for renewing his Neutrality, with M. Palm, her Majesty's Minister, who had the necessary Powers for concluding a Convention on that Subject. The taking of Wilshoffen is consider'd here as a Matter of great Importance, and that for many Reasons. It has oblig'd the Enemy to abandon the best Part of Bavaria, and to slight some Posts of great Consequence; it has put 3500 of their best Troops into our Hands as Prisoners of War; and it has thrown the Court of Bavaria into such Consternation, that there is Reason to believe we shall soon hear from Munich of Propositions for Peace.

Ratisbon, April 8. The Austrian Officers, who have been at Kelheim since it was abandoned by the French, say, that the Fortifications of that Place were so repair'd and augmented, that if they had stood their Ground, it would not have been very easy to force them. The Austrians had form'd a Design of making themselves Masters of Mosbourg, situated at the Conflux of the Ambr with the Iser, and at the Distance of three Leagues from Landshut, on the Road to Munich; and had, for that Purpose, detach'd the greatest Part of their Light-arm'd Troops; who advancing into that Neighbourhood, attack'd the Regiments of Thoring and Frohnberg, and oblig'd them to retire; upon which, the Bavarians quitted Landshut, in order to post themselves at Mosbourg, where their whole Army is now assembling; it will consist of 30,000 Men; whereas that of the Queen of Hungary is not above 20,000, but they expect considerable Reinforcements from Austria, and five Regiments from the Upper Palatinate; so that we very soon shall hear of something important on that Side.

Frankfort, April 11. The French continue to carry off all the Provisions in this Neighbourhood; several Bailiwicks in the Electorate of Mentz have been oblig'd to raise 100,000 Florins, because they had no Provisions. The Carriages that lately arrived from Hochst, were laden with M. Maillebois's heavy Baggage, which is to proceed to Italy. His Excellency leaves the Army on the 16th; and the Marquis de la Farra, Lieutenant-General, is to command till the Arrival of the Prince of Conti. The Head Quarters of that Army will be speedily transferr'd to Weilbourg, which the Hanoverians abandon'd Yesterday. It is amazing to see how their Forces are daily strengthen'd by small Bodies from Alsace, Swabia, and elsewhere; but we do not apprehend that any great Stroke will be struck till the Arrival of the Prince of Conti.

Hague, April 16. M. Mann, Envoy Extraordinary from the King of Sweden as Landgrave of Hesse Cassel, communicated Yesterday to the Government his Dispatches; and we are told, that they contain an Account that M. Maillebois has demand'd of Prince William of Hesse, as Stadtholder of that Landgraviate, a Passage for 55 Battalions, and 92 Squadrons, which are to be detach'd from that Army, in order to make an Irruption into the Electorate of Hanover. According to some private Letters from Frankfort, this great Detachment is to be commanded by M. Maillebois in Person, and is to march on the 24th Instant; by which Time, it is believed, the Prince of Conti will arrive in that Army, and continue to make Head against the Forces of the Allies under Duke Aremberg, while the Marshal executes this grand Scheme; which the French Court is said to have more at Heart, than either the Progress of the War in Flanders or in Italy. We likewise learn by the same Letters, that the French Marshal has made some new Propositions to the Elector of Mentz; and at the same

time signify'd, that if they were not complied with, he should find himself oblig'd to bombard his Capital. We can scarce give Credit to this Intelligence; but it is certain, that his Electoral Highness has been oblig'd to pay the French Agent at his Court 110,000 Florins, by way of additional Contributions.

I R E L A N D.

Roscommon, March 27. Last Night, about 11 o'Clock, died at Mote, near this Town, the Hon. Sir Edward Crofton, Bart. He was Member of Parliament for the County of Roscommon, Colonel of a Regiment of Militia, and Governor of the County. He is succeeded in Title, and Part of his Estate, by Oliver Crofton, Esq; and 3000 l. a Year comes to Marcus Lowther, Esq; who married his Sister.

Dublin, April 1. From the Hall Barony of Ennis in the County of Mayo, March 15. On the 11th Inst. there fell a very large Shower of Rain in this Place, which appeared Red; and all the People and Cattle that were abroad at that Time, look'd as if they were cover'd with Blood. The Ground was Red for about half an Hour, after which there fell a great Snow.

Letters from Armagh, Omagh, the County of Tyrone, and the City of Derry, give most melancholy Accounts of the Distress of the People in these several Parts, by assuring us, that the great Mortality of their Cattle, occasioned by their feeding on rotten Hay and Straw, is the only and sad Relief that, for the present, suspends the Death of Thousands; who drag Home, and eat those wasted Carcasses that lie in the Fields and Ditches. A Gentleman, who apprehends that this Distress may soon end in a National Pestilence, and who thinks with Concern on the present Suffering of our Fellow Creatures, proposes to join a Moiety of 500 l. with any Five Gentlemen who will contribute each 500 more, to the raising a Sum of 3000 l. to be sent to England and Scotland for Grain and Oatmeal, to be afterwards sold at prime Cost to the Poor only of those distressed Counties.

We have an authentick Account from Kinsale, that the Hon. Capt. Hamilton, Commander of the Augusta, sail'd thence the 19th ult. on a Cruise, in Company with the Faulkland Man of War and Boscawen Privateer; the 13d Capt. Hamilton took a Prize (not one in Company with him) which arriv'd here the 25th. call'd the La Chama-flour, from St. Domingo, 250 Tons, 20 Guns, 74 Men, Jaques Braddon, Master, laden with Sugar, Indigo, Cotton, &c. bound to Nantz. The Cargo is supposed to be worth 25,000 l. exclusive of three Chests of Silver, containing 20,000 Pieces of Eight, which were the Property of a Spanish Priest on board. 'Tis said, this Prize engag'd three Privateers at different Times in her Passage, and clear'd herself of them. She took a Ship from Cork, bound to South Carolina, which she ranfom'd; the Owners are discharged now from the Obligation, Captain Hamilton having sent in the Mate of the Cork Ship with the Bond, to be given up to the Owners. Seven Sail left St. Domingo, in Company with the Prize, under Convoy of four Men of War, from 50 to 70 Guns; his Majesty's Ship the Anglesey saw the Prize safe into that Harbour, and went again the 28th to Sea. The Men of War station'd there, and the Privateers which are still turning out, will probably keep those Coasts clear of any of our Enemies Privateers infesting them.

Last Sunday died Miss Vesey, Daughter of the late Agmondesham Vesey, Esq; formerly Accomptant General of this Kingdom.

Last Tuesday came on at the Assizes at Naas, before the Right Hon. the Lord Chief Baron Bowes, the Trial of the Right Hon. the Earl of Anglesea, Mr. John Jans, and Mr. Lacy, upon an Indictment for Conspiracy against James Annesley, Esq; some Affidavits were produced, in order to put off the Trial; but the Court being of Opinion that there was not sufficient Cause, the Trial came on, and they were all acquitted.

At the said Assizes one Neal O'Neal was tried, and found guilty of Perjury.

Yesterday a Proclamation was issued by their Excellencies the Lords Justices and Council of Ireland, offering a Reward of 100 l. for apprehending and convicting any Person or Persons concerned in the Murder of Mr. Samuel Jolly, Surveyor of Malahide, at Swords, on Friday the 15th of last Month, particularly Edward Scragrave, Bryan Koigly, and Patrick Oram, who are charged with being present at, and concerned in the said Murder.

His Grace the Lord Archbishop of Dublin, Treasurer to the Incorporated Society of promoting English Protestant Schools in Ireland, has received from the Executors of the late Earl of Kildare, 1500 l. 500 l. thereof towards the Support of the Charter School at Castle Der-

most, 500l. for erecting a Charter School at Manooth, in the County of Kildare; and 500l. for a new School at Strangford, in the County of Down.

Extract of a Private Letter from Kinfae, March 29.

Captain Hamilton, Commander of the Augusta Man of War, sent in here last Wednesday a French Ship of 10 Guns, and 74 Men, from the Havanna, bound to Nantz. Her Cargo is Sugar, Cotton, and three Boxes of Pistols; all valued at 30,000l.

By the George, Capt. Ambler, from Philadelphia in 41 Days, who arrived here last Sunday, there is an Account, that the Warren, 16 Carriage and 18 Swivels, and the Schooner George, 12 Carriage and 16 Swivels, had taken two Prizes; viz. le Lewis Joseph, 300 Tons, and 18 Carriage Guns, with a great Quantity of Sugar and Indigo, with some Coral and Deer Skins, and the St. Anne, a Snow of six Carriage Guns and 26 Men, laden with Sugar and Indigo. The New George Privateer hath also taken a Sloop laden with Sugar. These Ships were all from Cape Francois, and bound to Bourdeaux and St. Malo's. The George also took another Vessel, which he sent into Bourdeaux. The above Ships are valued at 30,000l. Capt. Franklin had been at Jamaica a few Days after the Hurricane happen'd.
